Why “financial architects?”
In the same way that people engage an architect to design a custom home, clients partner with us to design, build and maintain their custom financial futures.

Our associates provide their clients with quality financial services and products with integrity and confidence. We provide a comprehensive benefit package including FICA match on compensation earned with OneAmerica Companies products, as well as Health and Life Insurance, 401(k) matching contributions and non contributory retirement plan. Our qualifying associates earn competitive compensation through commissions, production bonus and training/transition allowance.

“Our career producers are in business for themselves, but not by themselves.”
—Susan M. Lampros, FLMI, ACS
Managing Director

We provide customized training and coaching for the serious professional in the areas of practice management, professional development and marketing. They become part of an exciting team that own their own practice but share the resources and knowledge that provide for financial efficiency and effectiveness.
